

## Worship

### **BIG IDEA**

Every thing that has been made was made to worship. Every person created was created to worship. Worship is in our nature. Therefore, everyone worships something. In this series, we hope to learn more about worship so that we may direct our worship to God and God alone.

In week one of our series on worship, we look through the scriptures to find out what exactly is worship and what are we worshipping by the way we live our lives.

1. Worship is to bow.                      2. Worship is to sacrifice.                      3. Worship is to adore.

### **READ PSALM 100 AND PRAY**

One effective way to worship in a small group setting is to begin with a Psalm and prayer. Instead of closing the prayer with 'AMEN', offer a chance for people to name different characteristics of God aloud. This can be popcorn style as things come to mind.

### **TALK IT OVER**

- Was there anything in particular from Sunday that the Holy Spirit highlighted to you, challenged you with, or called you to?
- How would you describe worship?
- Who is God to you? How do you view God?
- How would you describe your worship to God?
- What are some talents / gifts you have that you can use to worship God?
- Are there things in your life that interfere or interrupt your worship to God?
- What can we do to keep our worship focused on God?

### **PRAYER FOCUS**

Spend time in prayer thanking God that we get to know Him personally because of Jesus. Pray specifically for Fields of Faith this week. That God would open the eyes of unbelievers to see Him rightly and take a next step of faith.
